**R031-11: A Regulation Relating to Hazardous Waste:** This regulation deletes obsolete language in NAC 444.8752 through NAC 444.8788 inclusive, which pertain to a grant funded program for reduction of hazardous or industrial waste using new environmental technologies. No grant applications have been received, nor have grants been awarded in over a decade and no funding for this program is included in the SFY12-13 legislatively approved budget.

Alternatively, free and confidential assistance regarding waste reduction, recycling, pollution prevention and hazardous waste regulatory compliance is currently available to all Nevada businesses from the University of Nevada, Reno's Business Environmental Program through a longstanding contract with the Nevada Division of Environmental Protection (NDEP).
